The new Magrabi 200-bed Hospital is located in a multi-storey building in Tanta.

The building comprises a basement which is allocated to support services (IT room, electrical room, generator room, storages, pharmacy and mechanical room); a

ground floor used as a reception area for the hospital. The first floor is used for patient preparation, operation rooms and patient recovery and the second floor is dedicated for patient accommodation. ECG scope is limited to the basement and 1st floor only.
