The project is located in Elgabal Elakhdar region of Libya, this comprehensive healthcare project encompasses a substantial **160-bed** hospital spanning two floors. The hospital boasts an impressive 20,500 m<sup>2</sup> of built-up area, ensuring sufficient space for state-of-the-art medical facilities and patient care. Recognizing the importance of

a well-supported medical staff, the project also includes a dedicated 1,500 m<sup>2</sup> building designed to provide comfortable and convenient accommodation for the hospital's doctors.
