Electrical  
Infrastructure (Surface Drainage)  
Roads  
Structural

The project includes the expansion of the Tenth Ring Road, which extends from Qawarsha Gate through Sidi Faraj area to Sidi Khalifa Bridge with a total length of 42 kilometers. The expansion aims to raise the road efficiency to comply with international codes and standards and increase its capacity. Additionally, 10 service points will be distributed along the road to

provide essential services and enhance comfort and convenience for users with a focus on improving safety and traffic flow. This will contribute to supporting the local economy and promoting domestic tourism.
