Schematic Design
Detailed Design
Tender Documents

Location

Libya

Types of Activities

Civil
Communications and Security Systems
Electrical
Infrastructure
Roads

Tobruq city development project includes the Al-Mukhtar and Abdel Moneim Riad neighborhoods, covering a total area of 3,100,000 m². The city is designated as a residential and commercial area, featuring essential public services such as clinics, schools, and mosques. ECG is leading efforts to upgrade of existing infrastructure, including water, wastewater, and road networks, in alignment with 2025 vision outlined in the Third Generation Project for Development Potentials and Alternatives.
